Manufacturing Plant Floor Audit Software Built for the Mobile Era

Plant floor audits are critical to driving quality, safety and operations. But too often, paper-based audits become 'check the box' activities, that are difficult to maintain and provide little to no value.

EASE is the innovative mobile platform leading manufacturers use to simplify how they administer, conduct and respond to plant floor audits.
With best-in-class support for layered process audits, plus audits for safety, 5S, Gemba Walks and more – you can drastically reduce labor costs and drive higher performance while increasing audit value.

Mobile Auditing
Web, iOS, Android, Windows

EASE Delivers:

☑ Significant reduction in audit labor time and cost

☑ Early risk identification leading to reduced scrap, rework, returns and increased safety and performance

☑ Unparalleled purpose-built user experience for plant floor audits

☑ Innovative mobile app (iOS and Android) with robust offline support

☑ Recurring multi-layer audit scheduling and reminders

The Easy-to-use Mobile Audit Platform for Manufacturing

Make it Simple

You're busy so we give you the tools to work smarter. Automate your audit program and significantly reduce audit labor time and cost.

Keep Customers Happy

Identify risks and trends early so yourbusiness runs more smoothly. Less scrap,rework, and returns equals satisfiedcustomers.

Find the Truth

Bring visibility and accountability to plant floor audits through real-time actionable data that drives positive change

No Waiting Around

EASE delivers rapid time-to-value through an intuitive user experience and cloud deployment model that has you up and running in days.

Advanced Mobile Auditing

Accelerate your Digital Transformation

Eliminate paper with the go-to mobile app for conducting audits and issue tracking through an intuitive user interface that auditors love.

Ensure Process Standardization

Prevent pencil-whipping with randomized questions, photographic evidence, rotating auditors and timed audits.

Keep Everyone Up-to-date

Automated emails and mobile push notifications ensure employees know when they have an upcoming audit or other tasks due such as corrective actions.

What Our Customers Say:

> EASE looks modern, is easy to understand, and people on the floor are more engaged in doing the audits, so it increases audit completion rates.
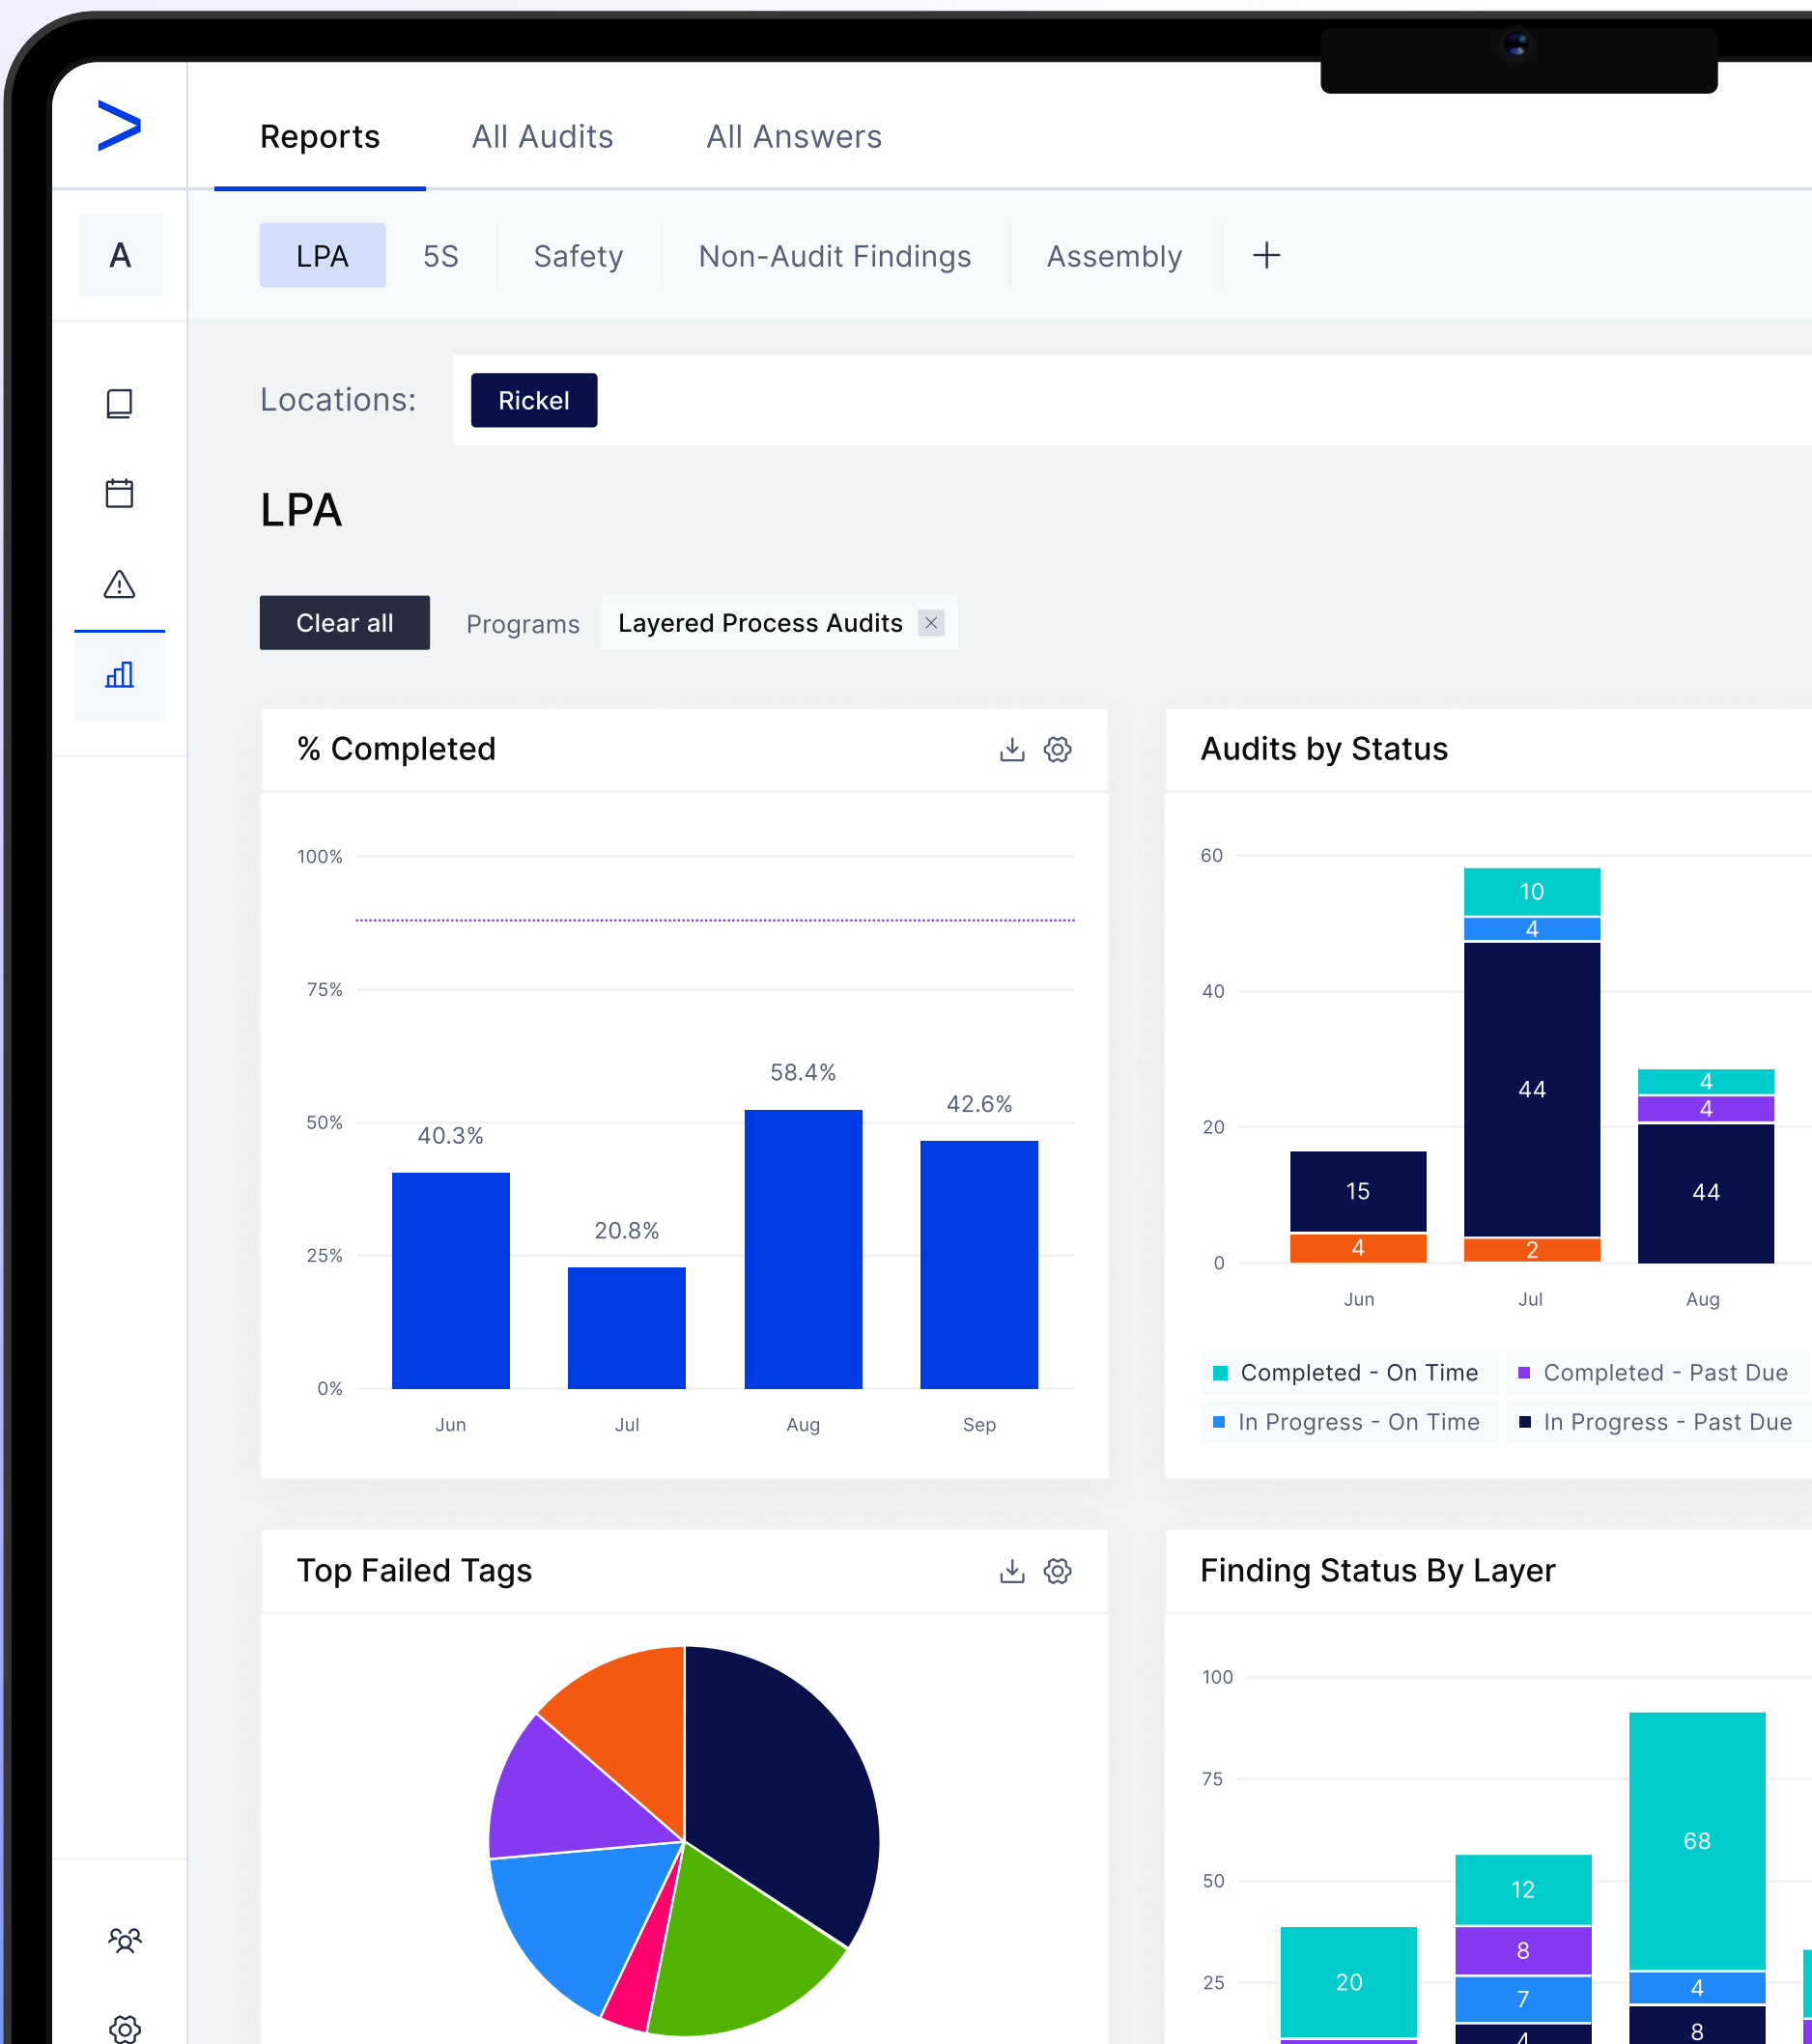

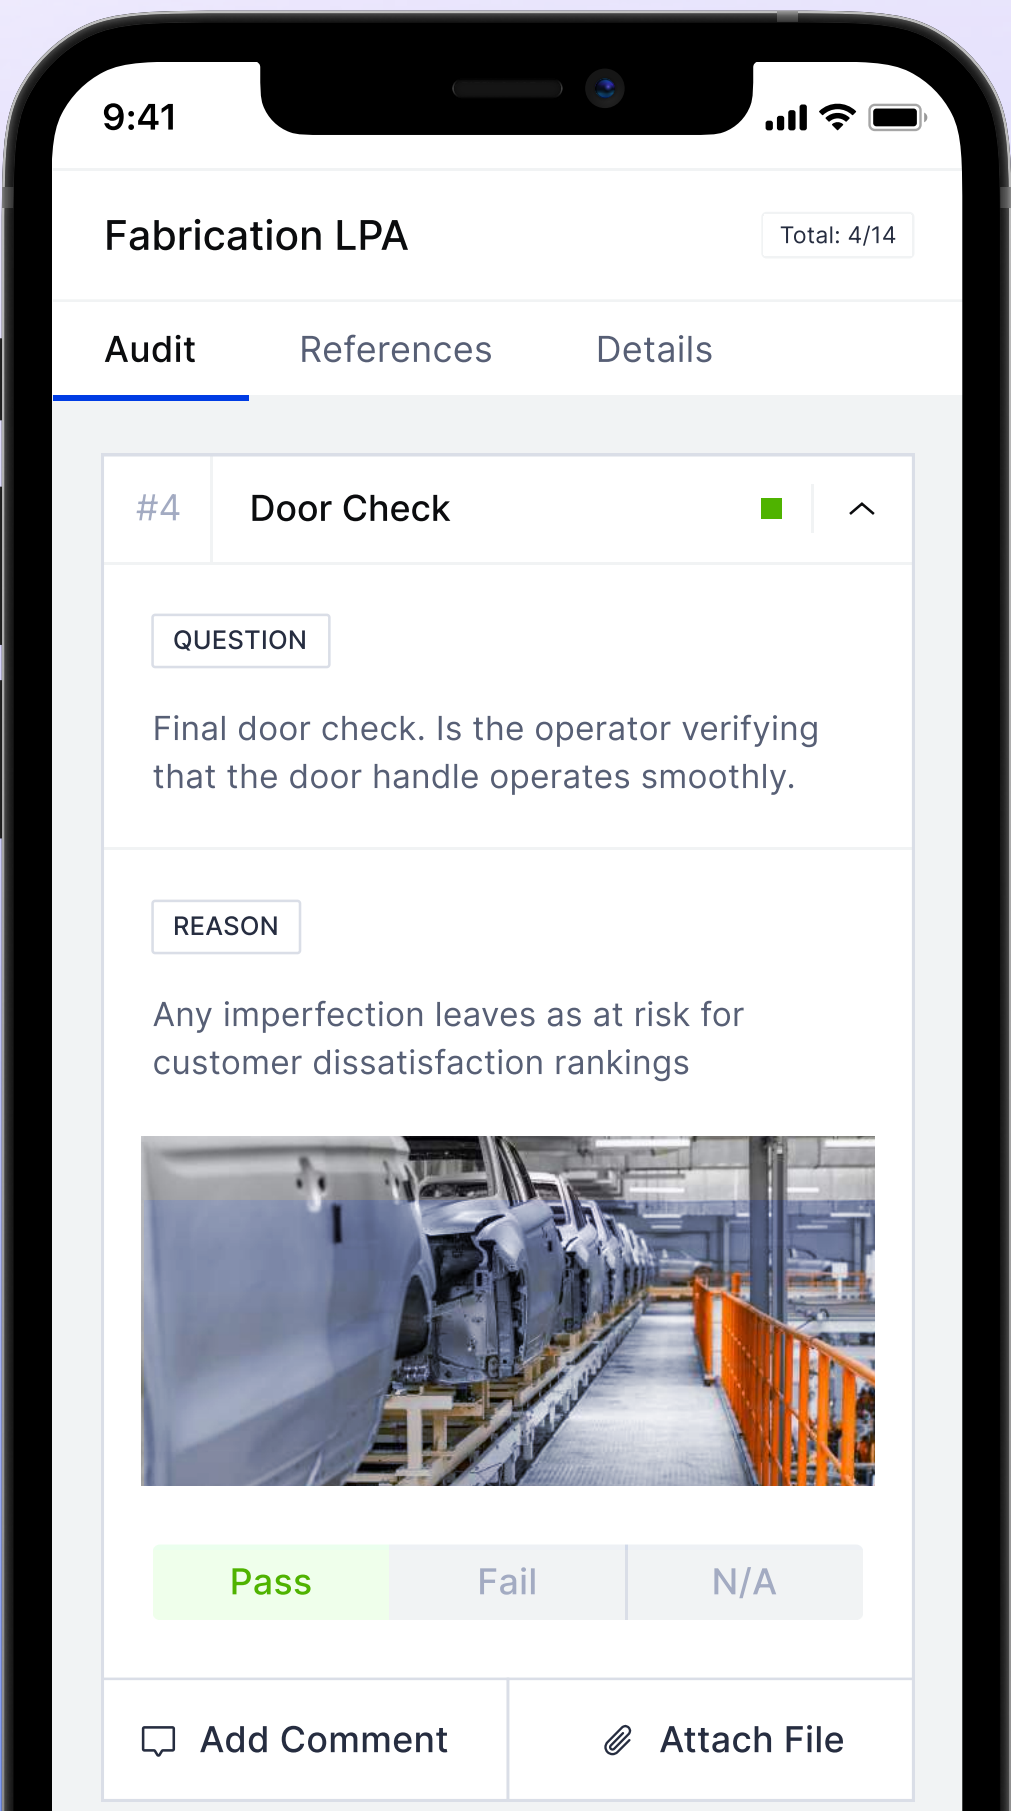

> Using EASE has allowed us to mitigate issues that could have become customer problems. If it's prevented even one quality issue — and it has — it's paid for itself.

> We have reduced our COPQ by 23% since we have implemented EASE.

> We were spending well over 100-man hours per month on audit administration and we have reduced that by 90% since implementing Ease.
