See Your Plant Floor More Clearly with EASE

Manufacturing Plant Floor Audit Software Built for the Mobile Era

Plant floor audits are critical to driving quality, safety and operations. But too often, paper-based audits become 'check the box' activities, that are difficult to maintain and provide little to no value.

EASE is the innovative mobile platform leading manufacturers use to simplify how they administer, conduct and respond to plant floor audits.

With best-in-class support for **layered process audits,** plus audits for **safety, 5S,** Gemba Walks and more – you can drastically reduce labor costs and drive higher performance while increasing audit value.

EASE Delivers:

> Significant reduction in audit labor time and cost

> Early risk identification leading to reduced scrap, rework, returns and increased safety and performance

> Unparalleled purpose-built user experience for plant floor audits

> Innovative mobile app (iOS and Android) with robust offline support

> Recurring multi-layer audit scheduling and reminders

> And much more...

> ease.io

The Easy-to-use Mobile Audit Platform for Manufacturing

Make it Simple

You're busy so we give you the tools to work smarter. Automate your audit program and significantly reduce audit labor time and cost.
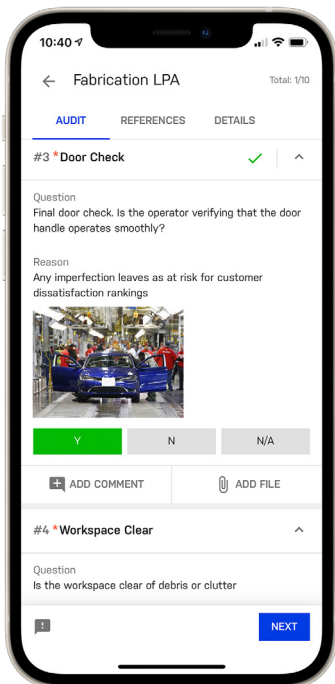

Find the Truth

Bring visibility and accountability to plant floor audits through real-time actionable data that drives positive change.

Keep Customers Happy

Identify risks and trends early so your business runs more smoothly. Less scrap, rework, and returns equals satisfied customers.

No Waiting Around

EASE delivers rapid time-to-value through an intuitive user experience and cloud deployment model that has you up and running in days.

Advanced Mobile Auditing

Accelerate your Digital Transformation

Eliminate paper with the go-to mobile app for conducting audits and issue tracking through an intuitive user interface that auditors love.

Ensure Process Standardization

Prevent pencil-whipping with randomized questions, photographic evidence, rotating auditors and timed audits.

Keep Everyone Up-to-date

Automated emails and mobile push notifications ensure employees know when they have an upcoming audit or other tasks due such as corrective actions.

> ease.io

Reduce Audit Administration Costs

Smart, Multi-Layer Audit Scheduling

Automatically assign audits — including by layer, shift and location — factoring in time off, holidays and planned downtime, all in minutes.

Closed-Loop Corrective Actions

Record mitigations, launch corrective actions and shorten time to closure.

Advanced Question Management

Use the question library to manage questions, versioning, tags, randomization, and attach reference images and other documents to minimize audit ambiguity.

Simplify Audit Reporting

User-Friendly Dashboards

Monitor KPIs and trends using customizable and sharable dashboards with drill down reports.

Avoid Blind Spots and Delays

Access audit data instantly, when findings are most actionable and problems are less expensive to fix.

View Trends Across the Enterprise

Analyze data across multiple manufacturing facilities, look for trends, compare plant performance and identify systemic issues.

What Our Customers Say:

"EASE looks modern, is easy to understand, and people on the floor are more engaged in doing the audits, so **it increases audit completion rates**."
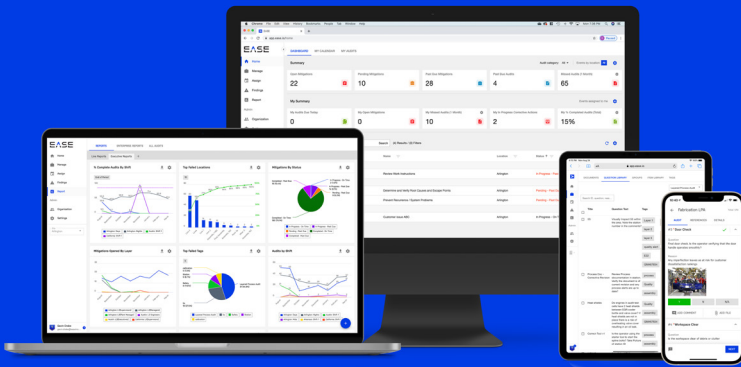

"Using EASE has allowed us to mitigate issues that could have become customer problems. If it's prevented even one quality issue — and it has — **it's paid for itself**."

"We have **reduced our COPQ by 23%** since we have implemented EASE"

"We were spending well over 100-man hours per month on audit administration and we have **reduced that by 90% since implementing Ease**."

What are Layered Process Audits?

Layered process audits (LPAs) are a quality technique that focuses on observing and validating how products are made, rather than solely inspecting finished products. Organizations with robust LPA programs in place see significantly lower rework and scrap, fewer warranty holdbacks, and reduced customer complaints.

About EASE Inc.

Ease Inc. is the developer of EASE, the innovative mobile platform that helps manufacturers simplify how they administer, conduct and respond to plant floor audits.

Leading automotive, aerospace and manufacturing organizations around the globe depend on Ease's enterprise scale, expertise and customer-centricity. Ease is a privately held company based in Mission Viejo, California.
