

Make Your Plants Safer with EASE

EASE

Manufacturing Audit and Inspection Software Built for the Mobile Era

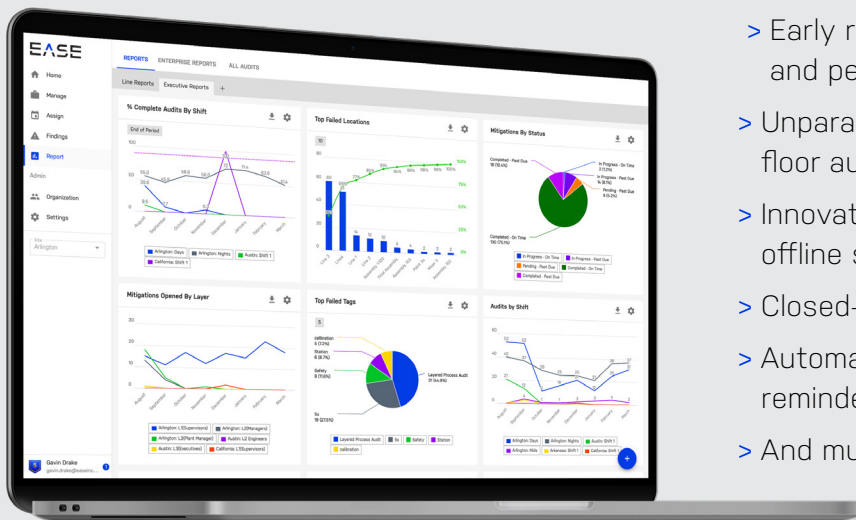

Plant floor audits and inspections are critical to driving safety, quality and operations. But too often, paper-based audits become 'check the box' activities that are difficult to maintain and provide little to no value.

EASE is the innovative mobile platform leading manufacturers use to simplify how they administer, conduct and respond to plant floor audits and inspections.

With best-in-class support for **plant floor audits and inspections, including layered process audits, safety inspections, 5S/6S, Gemba Walks** and more – you can drastically reduce labor costs and drive higher performance while increasing audit value.

EASE Delivers:

- > Significant reduction in administrative labor time and cost
- > Early risk identification leading to increased safety and performance
- > Unparalleled purpose-built user experience for plant floor audits and inspections
- > Innovative mobile app (iOS and Android) with robust offline support
- > Closed-loop issue tracking and management
- > Automated audit and inspection scheduling and reminders
- > And much more...

The Easy-to-use Mobile Audit Platform for Manufacturing:

Make it Simple

You're busy so we give you the tools to work smarter. Automate your audit and inspection programs and significantly reduce administrative time and cost.

Keep Employees Safer

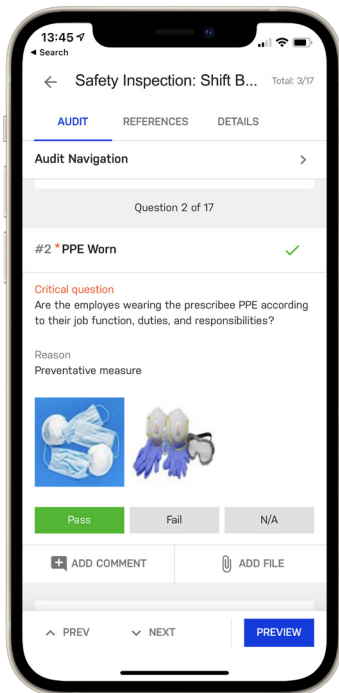

Identify risks and trends early so your business runs more smoothly. Proactive hazard identification equals safer workers.

Find the Truth

Bring visibility and accountability to plant floor audits and inspections through real-time actionable data that drives positive change.

No Waiting Around

EASE delivers rapid time-to-value through an intuitive user experience and cloud deployment model that has you up and running in days.

Advanced Mobile Auditing

Accelerate Your Digital Transformation

Eliminate paper with the go-to mobile app for conducting audits and inspections and managing issues through an intuitive user interface that auditors love.

Improve Audit and Inspection Integrity

Prevent pencil-whipping with randomized questions, photographic evidence, rotating assignments and timed audits.

Keep Everyone Up-to-Date

Automated emails and mobile notifications ensure your team knows when they have an upcoming inspection or other tasks due such as non-conformances to correct.

Reduce Administrative Costs

Smart, Multi-Layer Scheduling

Automatically assign audits and inspections – including by layer, shift and location - factoring in time off, holidays and planned downtime, all in minutes.

Closed-Loop Issue Resolution

Record non-conformances, launch corrective actions and shorten time to closure.

Advanced Question Management

Centrally manage questions, versioning, tags, randomization, and attach reference images and other documents to minimize ambiguity.

Streamlined Reporting

User-friendly dashboards

Monitor KPIs and proactively identify trends using customizable and sharable dashboards with drill down reports.

Avoid Blind Spots and Delays

Access audit and inspection data instantly when findings are most actionable and problems are less expensive to fix.

View Trends Across the Enterprise

Analyze data across multiple manufacturing facilities to spot trends, compare plant performance and identify systemic issues.

What Our Customers Say:

"EASE has enabled us to roll out layered process audits, 5S audits, health and safety audits and we have even utilized it to maintain our COVID procedures. **It's very flexible** and with the functionality of scoring and data reporting it **makes easy graphs and visuals.**"

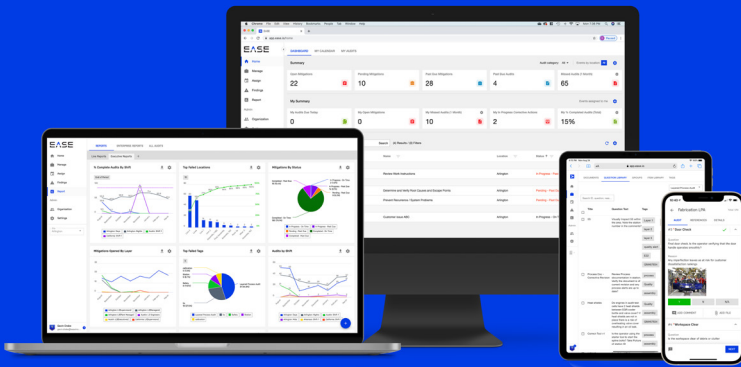

"EASE looks modern, is easy to understand, and people on the floor are more engaged in doing the audits, so **it increases audit completion rates.**"

"We were spending well over 100-man hours per month on audit administration and we have **reduced that by 90% since implementing EASE.**"

Looking for safer employees, happier customers and audit or inspection programs that drive real business value?

It's time for EASE.

- Native Support for Safety, Layered Process Audits, 5S/6S and More
- Mobile Auditing and Inspection Apps (iOS and Android)

Drive a Culture of Safety with Digital Safety Inspections

Discussions of safety culture often focus on vision and management commitment. And while these are important parts of creating a culture of safety, what's actually happening on the plant floor can tell you so much more. Taking your safety inspections digital enables your team to identify risks and correct non-conformances faster, leading to a safer work environment and demonstrating that your plant is committed to safety.

About Ease

EASE is the innovative mobile platform that helps manufacturers simplify how they administer, conduct and respond to plant floor audits and inspections. With best-in-class support for safety, layered process audits, 5S/6S and more – EASE drastically reduces labor costs and delivers insights that ensure audit programs drive real business value.

Leading automotive, aerospace and manufacturing organizations around the globe depend on EASE's enterprise scale, expertise and customer-centricity. EASE is a privately held company based in Mission Viejo, California. To learn more, please visit www.ease.io.
